EXPERIENCE

Campus Ambassador and Lead (Remote)   *Apr 23 - May 23*
- During my internship at *MyCaptain* as a **Digital Marketing Campus Ambassador**, I gained hands-on experience in promotional strategies and team leadership. I led a group of fellow ambassadors, helping expand the company's outreach within campus networks. Due to my consistent performance and communication skills, I was promoted to the role of **HR**, where I was responsible for onboarding and managing student hires. I was recognized with a **Letter of Excellence and Certificate of Appreciation** for my contributions and leadership.

Lead, Rajasthani Club (VIT Bhopal)
- Served as Lead Representative for the Rajasthani Club at VIT Bhopal University for three consecutive years, where I managed public relations activities, including product procurement and sales coordination, as well as promotional initiatives for the club.

SKILLS

- **Technical skills:** Python, JavaScript, SQL, C++ , HTML, CSS, MySQL, Power BI, Chatgpt(Prompt Engineer)
- **Non-Technical skills:** Excel, Power Point, Graphic Designing, Communication, Problem Solving

PROJECTS

     akshikamodi/Commodity-Price-Predictor
- Developed a Random Forest model to forecast crop prices by integrating historical commodity prices, weather data (rainfall, temperature), and economic indicators (GDP, inflation).
- Utilized feature importance analysis to identify key predictors, enabling data-driven insights for farmers and agri-stakeholders.
  https://github.com/akshikamodi/Market-Pulse-Trading-Platform.git
- Developed a real-time crypto and forex trading dashboard with integrated charts, live price updates, and a paper trading terminal to practice trading.
- Built with vanilla HTML/CSS/JavaScript for fast, framework-free deployment and easy customization.
